

MIKE MURPHY FORD, INC.
TAKATA AIRBAG RECALL DISCLAIMER

I, the undersigned, acknowledge and understand the National Highway Traffic Safety Administration (NHTSA) issued a report indicating multiple automakers are recalling vehicles with certain types of driver and passenger frontal airbag inflators manufactured by Takata Corporation (Takata). While the recalls are U.S. national in scope, the immediate focus will be on replacing airbag inflators located in geographic areas with persistent heat and high absolute humidity.

I understand the recall of defective airbag inflators made by Takata now involves 14 vehicle manufacturers and millions of U.S. vehicles. I also acknowledge and understand Mike Murphy Ford, Inc. is not involved in the manufacturing, production, design, creation, processing, or installation of the defective Takata airbags. The defective inflators, which are supposed to produce gas that fills air bags to protect vehicle occupants in the event of a crash, can create excess pressure that causes the inflator to explode, sending metal fragments flying into the passenger compartment, which can cause serious injury or death. Since May 2015, when Takata acknowledged that some of its inflators were defective and a risk to public safety, the NHTSA has been working to organize and speed-up the recall repairs, which constitute the largest and most complex safety recall in U.S. history. The most recent expansion of the recalls, brings the total to more than 35 million inflators under recall in the United States. NHTSA is coordinating and accelerating the recalls to ensure that every American vehicle has a safe air bag as quickly as possible.

As with all recalls, I understand it is recommended to have the necessary work performed as soon as parts are available and the service can be scheduled. Since age has been established as a key factor in most of the Takata airbag ruptures, it's especially important for owners of older recalled cars to get this work done.

On June 30, 2016, NHTSA announced that certain 2001-2003 Honda and Acura models have a much higher risk of ruptures during airbag deployments. In addition, while the list below is not exhaustive, under advisement from the NHTSA and with information from Takata, Ford is recalling specific vehicles at this point:

- 2004-2011 Ranger - Driver's and/or passenger side airbag
- 2005-2006 GT - Driver's and/or passenger side airbag
- 2005-2014 Mustang - Driver's and/or passenger side airbag
- 2006-2011 Fusion - Passenger side airbag
- 2007-2010 Edge - Passenger side airbag

As noted above, while automakers are receiving the replacement parts as soon as possible, most replacement parts are being sent to the high-humidity areas first. *Please refer to "Annex A" listing priority groups attached to this disclaimer before you sign this disclaimer.*

Mike Murphy Ford, Inc. made every reasonable attempt to ensure the accuracy and reliability of the information provided from Takata's airbag recall was made available to its employees and customers. I understand Mike Murphy Ford, Inc. shall not be held liable for any injury, damage and/or death of whatever nature (direct, indirect, consequential, or other) whether arising in contract, tort or otherwise, which may arise as a result of my use of a vehicle, used or new, with a defective Takata airbag from Mike Murphy Ford, Inc.

I ACKNOWLEDGE THAT I HAVE READ AND UNDERSTOOD THIS DISCLAIMER.

ANNEX A

Coordinated Remedy Program Priority Groups

In the Priority Groups listed below, the area of high absolute humidity (“HAH”) is defined by each vehicle manufacturer individually, but in **all** instances includes vehicles originally sold or ever registered in Alabama, Florida, Georgia, Hawaii, Louisiana, Mississippi, Texas, Puerto Rico, American Samoa, Guam, Saipan, and the U.S. Virgin Islands. In limited instances, parts for some HAH recalls are currently only available to a limited area within the HAH with the highest risk of rupture. “Non-HAH” means any vehicle that has not been identified by the vehicle manufacturer as having been originally sold or ever registered in the HAH region, as defined by the vehicle manufacturer.

PRIORITY GROUP 1

BMW:

2002-2006 BMW 3 Series, M3 (HAH)

Daimler Vans USA:

2007-2008 Freightliner Sprinter (HAH)

2007-2008 Dodge Sprinter (HAH)

Daimler Truck North America-DTNA:

2008-2009 Sterling Bullet (HAH and non-HAH)

FCA:

2006-2008 Chrysler 300, 300C, SRT8 (HAH)

2005 Chrysler 300, 300C, SRT8 (HAH and non-HAH)

2008 Dodge Challenger (HAH)

2006-2008 Dodge Charger (HAH)

2005 Dodge Dakota (HAH)

2004-2005 Dodge Durango (HAH)

2006-2008 Dodge Magnum (HAH)

2005 Dodge Magnum (HAH and non-HAH)

2004-2005 Dodge Ram 1500, 2500, 3500 Pickup (HAH)

Ford:

2005-2006 Ford GT (HAH)

2005-2008 Ford Mustang (HAH)

2004-2005 Ford Ranger (HAH)

GM:

2003-2007 Pontiac Vibe (HAH)

2005 GM-Saab 9-2X (HAH)
